Stage & task num	Task	Details / Results	Comments	Date completed (dd/mm/yy)	Criterion
Planning # 1	First meeting with the client	Collective information on the purpose of the program, and key functions		03/04/2020	A
# 2	Work on criteria A	Finished writing the scenario, solution, rationale, and success criteria	Set up a call with the client to discuss criteria A	14/04/2020	A
# 3	Video call with the client	Discuss next steps and review criteria A	Revision criteria A needed	15/04/2020	A, B
# 4	Work on criteria B	Finished making system flowchart, user interface design, algorithm design, a record of task table, and test plan.		17/04/2020	B
# 5	Revision of criteria A and B	Edit criteria A and B to fix any big problems currently		23/04/2020	A, B
Design	Plan amount of functions needed for Python				
	Plan user interface with Tkinter				
Development	Start coding functions to input data				
	Create a working database				
Testing	Create test variables to test program				
	Run program through the test plan				
Implementation	Check for bugs in program and test with real input				
	Send program to				

	client
